Jay serves as a senior Tax Principal at Bond Beebe and serves as President of Bond Beebe Financial Advisors, LLC. He advises individuals, families, trusts, estates and small business owners. He consults not only on tax planning and compliance matters but also on business transactions. His particular interest resides with financial and tax outcomes for families and business owners.

### Professional Experience

With more than 25 years of experience, Jay is an asset to the Firm. His view is that first, families and businesses are best understood by the clients themselves. But what is often ignored are competing family, financial and business interests. Discernment and choices critical to successful outcomes are where Jay brings the greatest value.

His extensive experience guiding families enables those families to select choices most beneficial for successful future outcomes. Emphasis is given to those multigenerational strategies that in the world today are necessary in protecting family economic interests. These approaches are designed to remove financial issues among family members and enabling families to celebrate themselves. This is the payoff for Jay in his career today.
